Group of young people fighting climate change with a disruptive project.

Our team is organized in a functional structure of 3 Units: **Technical, Financial & Legal, and Marketing & Communication**. The CEO, together with the CFO, CTO and Finance Manager also make up the **CDA** whose function is that of ensuring the continuity of the information chain and the unity of the team as a whole.

The CEO manages the Marketing & Communication unit, the Team to pursue the Mission with action and spread the Vision; the CTO manages the Technical Area ensuring the success of R&D; CFO and Finance manager manage the Legal and Finance aspects working with an expert Lawyer and Accountant to ensure the safety and sustainability of the enterprise.

CAP TABLE COMPOSITION (6)

- Srls | Holding & Consulting company which includes operative members
- Abolfazl Ziarati | R&D Project manager - operative
- Iris Ten Have | R&D specialist - operative
- Hulteberg Chemistry and Engineering | Scale-up partner
- Giacinto Tommasini | Advisor for legal aspects
- Emanuele Crescini | Advisor for startup and finance aspects

We are collaborating with 3 interns and 4 Incubators in order to assure to Co2nvert a successful future.

The work was followed on a daily basis by the Board of Direction which supervised the overall schedule, defined the strategic objectives and tasks. All throughout we have been updating our stakeholders on a weekly basis, sharing news and discussing our next moves.

Our system proved effective. Now we are striving to improve it even more by implementing more regular updates for our stakeholders, by having monthly feedback sessions, and by sharing, every six months, a new version of our Business Plan. The Plan will incorporate the latest developments in technological and market research.

We also have established connections with several likely **investors** for the Research & Development phase.
